Aravali Brew Cafe - Hackathon 2026

Client Details

Client: Aravali Brew Cafe, a specialty coffee cafe

Contact person: Owner - Barista Rawat

Location: Central Hub, Jaipur Road, opposite Patel Stadium, Hathi Bhata, Ajmer, Rajasthan 305001

Contact: +91 63771 18119 | Instagram: @aravalibrews

Business: A small, cozy cafe serving coffee, kitchen dishes and desserts. It is open 8 AM to 10 PM on weekdays and 8 AM to 11 PM on weekends, and welcomes walk-ins.

Question we asked:

Q1. What is the main goal of your website?
A: We want people to see our menu and the feel of the cafe before they visit. They should be able to find us easily and request a table without calling.

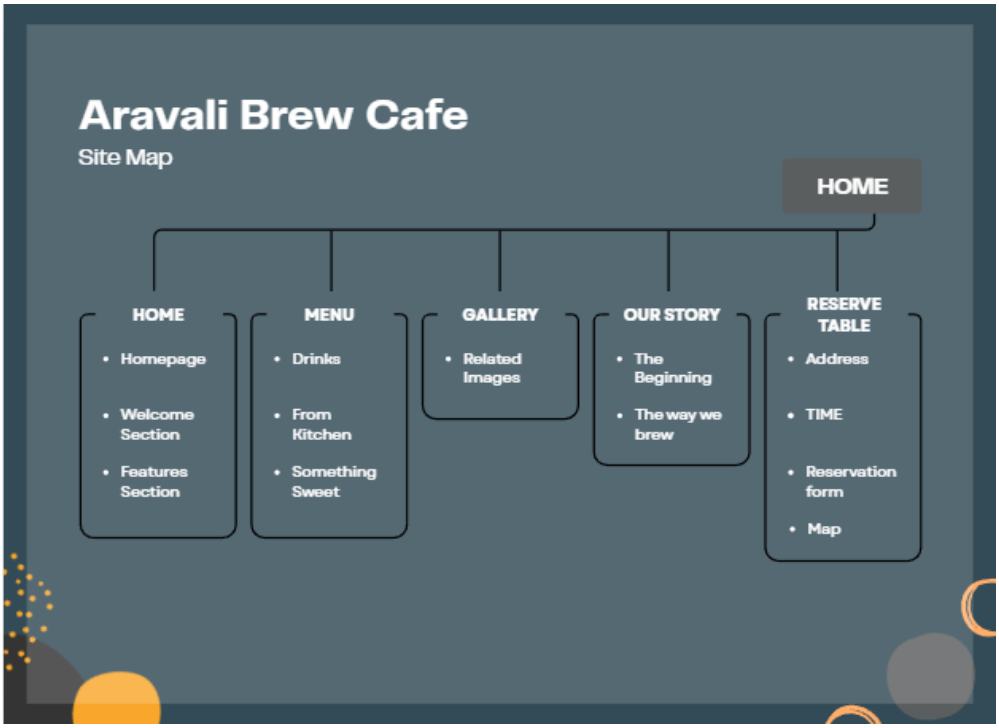

Q2. Who are your typical customers, and what do they look for?
A: Mostly students, young professionals and families from Ajmer. They come for good coffee, a calm place to work or talk, and a cozy atmosphere.

Q3. What should visitors feel when they open the website?
A: Warm, relaxed and welcoming, like a slow morning with a cup of coffee. It should not feel rushed or corporate.

Q4. Which information and pages must be on the site?
A: The menu with prices, photos of the cafe, our story since 2017, opening hours, the address with a map, and a way to request a table booking.

Q5. Do you need the site in more than one language, and how will customers view it?
A: Yes, English and Hindi, because many of our customers are more comfortable in Hindi. Most people will open it on their phones.

Colours and Fonts:

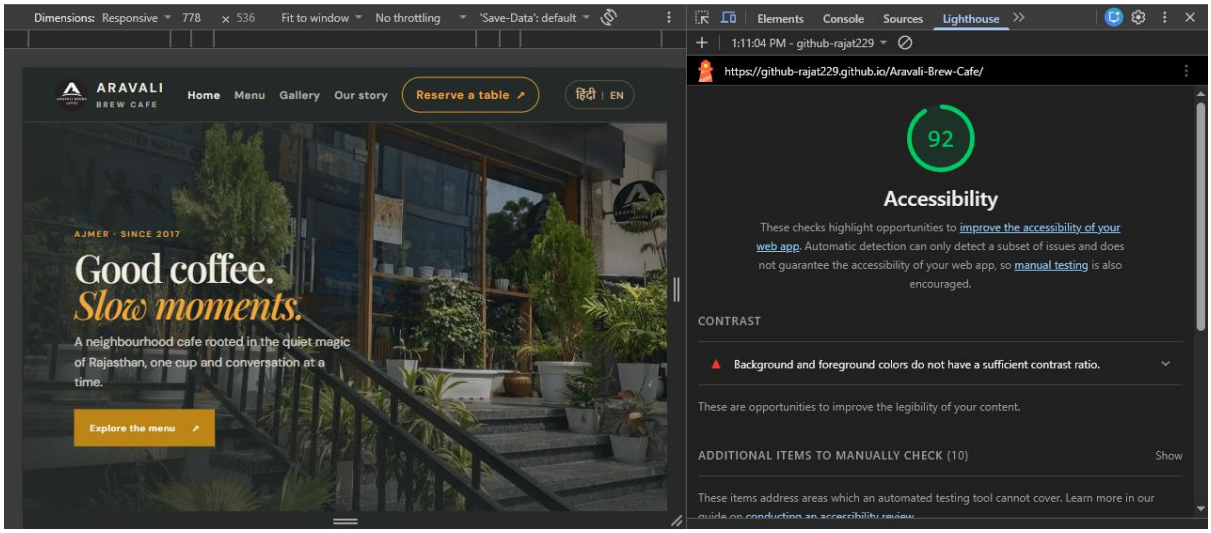

Colours: A charcoal-green background (#252B29) with cream text (#F4EEE3) creates a calm, cozy mood and strong contrast. Amber (#F2A93B) highlights headings and key actions, recalling roasted coffee and warm lighting. Burnt orange (#B8692F) marks prices and links on cream sections. The limited palette keeps the site consistent and lets photos stand out.

Fonts: Playfair Display gives headings an elegant, welcoming character. Cormorant Garamond italics add an artisanal accent. DM Sans keeps body text clean and readable on mobile.
